REGIONAL REACH. ACCOUNTABLE DELIVERY.

Your last-mile partner

in the Baltimore-Washington region.

Night & Day Logistics supports 3PLs, freight forwarders, air cargo operators and courier networks with time-critical, routed and after-hours delivery across Maryland, Washington DC and Virginia.

24/7/365	MD / DC / VA	5 airports	2011
LIVE DISPATCH	PRIMARY REGION	REGIONAL NETWORK	ESTABLISHED

CORE CAPABILITIES

Time-critical & direct drive

STAT, same-day and point-to-point delivery. Pickup and delivery windows confirmed at booking.

Routed & dedicated coverage

Scheduled circuits, named contracted couriers and trained backup coverage, planned around your stops.

Airport recovery & AOG

Cargo recovery, tender and inter-airport transfers. Parts delivered to aircraft, hangars, MROs or FBOs.

Medical & life-science transport

Specimens, blood products, sterile trays and clinical-trial material, with handling matched to the assignment.

Temperature-sensitive shipments

Ambient, refrigerated and frozen requirements reviewed before acceptance. Packaging and logger needs agreed in advance.

Storage & staging

Glen Burnie staging, shipment holds and coordinated release. Space, equipment and storage conditions confirmed per job.

COVERAGE THAT CONNECTS YOUR NETWORK

Maryland / Washington DC / Virginia
Baltimore, Glen Burnie, the I-270 corridor, Washington DC and Northern Virginia. Extended lanes include Hagerstown, Salisbury, Fredericksburg, Richmond and Hampton Roads.

AIRPORTS BWI / DCA / IAD / HEF (Manassas) / MTN (Martin State)

2301 Dorsey Road, Unit 106, Glen Burnie, MD 21061

BUILT FOR PARTNER OPERATIONS

Clear handoffs. Visible progress.

A shared operating plan defines the lane, customer communications, shipment handling and proof of delivery before the first job moves.

HOW WE WORK TOGETHER

01 Scope the work

Share lanes, volumes, pickup windows, shipment details and site-access requirements.

02 Agree the operating plan

Confirm rates, billing, branding, escalation contacts, documentation and customer-communication rules.

03 Dispatch & track

A qualified contracted courier is assigned. Live dispatch coordinates pickup, transit updates and any exceptions.

04 Close the loop

Electronic proof of delivery records the handoff. Reporting and invoice format are agreed for your account.

QUALIFY THE ASSIGNMENT

Handling & access

Confirm packaging, temperature limits, dangerous-goods classification and facility access before acceptance.

Courier requirements

Training and competency are matched to the work. Airport jobs require applicable air-cargo security training, STA and access checks.

Documentation

Request current insurance, operating authority and applicable company air-cargo approval documents during qualification.

Protecting the relationship

Agree white-label presentation, customer contacts, non-solicitation and non-circumvention terms in writing.

EQUIPMENT & VISIBILITY

Vehicle options
Cargo and sprinter vans, temperature-controlled vehicles, and liftgate box trucks. Vehicle size, capacity and loading equipment are matched to the job.

Operational visibility
Live dispatch, shipment status updates, GPS visibility and electronic proof of delivery. Phone and email dispatch; integration options reviewed by account.

LET'S PLAN YOUR NEXT LANE.
